TAY
tech arts for youth

Stop-Frame Animation

Learn to create, rig, and animate your own puppets in Adobe's new performative animation program, Character Animator! Control your character's face with your own face, speak through their mouths, and move their arms and legs with mouse gestures! Students will get to create their very own short cartoon
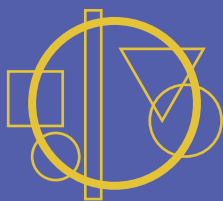

Recommended: 8 Contact hours Ages 8 -16

Green Screen/Special Effects

In this engaging workshop students learn how those special effects in the movies they watch work! Students learn how to light and shoot using a green screen and edit what they shoot into a variety of environments and situations, creating their own short video.

Recommended: 8 Contact hours Ages 10-16

Digital Collage

This workshops explores the history and techniques of the oldest practiced media art, and updates it for the 21st century. Students learn to create and edit their own animated collages using professional video editing software. This workshop exposes students to a variety of editing techniques and lets their creativity fly!
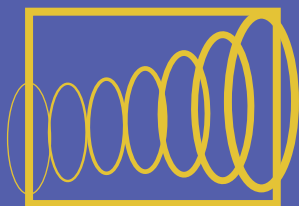

Recommended: 8 Contact hours Ages 10-16

Character Animator

Learn to create, rig, and animate your own puppets in Adobe's new performative animation program, Character Animator! Control your character's face with your own face, speak through their mouths, and move their arms and legs with mouse gestures! Students will get to create their very own short cartoon

Recommended: 8 Contact hours Ages 10-16

Art of GiF's

GiF's are everywhere and can be used as powerful tools of expression. This workshop explores the cultural uses of this form and gives students the power to create their own web based graphics!

Recommended: 8 Contact hours Ages 10-16

Our workshops can be customized to accommodate most audiences and a range of topics. If you don't see something you would like to do, just contact us and we will work to customize one to suit your needs

Cost of workshops are $100 per student per workshop on-site at our location, $250 per student per workshop off-site. Please contact our Director of Education Kevin Kline for details.
